

Our New **SafetyConnect** (LMS) Platform is an Easy and Intuitive Workplace Safety Hub

A Digital Safety Hub for a Hybrid Workforce

Easily manage everything through one portal

SafetyConnect makes it easy for teams to achieve safety goals and manage safety programs with premium features like: training from anywhere, safety document uploads, and segmented reporting from anywhere.

A comprehensive hub for all things LMS

Hybrid Workforce - **SafetyConnect** delivers consistent training across your hybrid team.

Individual Learning - Our LMS allows individuals to train at their own pace.

Reporting and Insights - Easily gather data about how your team is performing and how they use the system.

On-site Safety Training - Maximize employee engagement, save money and reduce downtime with On-site Safety Training (available as an optional service).

DIY Training Kits - Software-based DIY Training Kits for in-house safety coordinators. Perfect for group training either in a classroom setting or out on the jobsite (available as an optional service).

Virtual Instructor-led Training - Gather your remote workforce in one place, so you can conduct a live training easily and efficiently.

The main benefits of the **SafetyConnect** platform:

- Align team safety goals
- Connect a hybrid workplace
- Create custom training content
- Manage safety in one place
- Bundle with one of three different tiers of subscription packages

The other features of **SafetyConnect**:

- As easy to navigate as popular social apps
- Modern learning with virtual, instructor-led training
- Intuitive course builder to create your own training
- In-depth reporting that reveals employee insights
- Ease of access for a digital and hybrid workforce
- Dedicated account manager to increase success
